

Gorden

Cover Plates

1440-2388 with extensions
2388-7088 without extensions

- *Low in cost and high in performance.*
- *Installs easily without drilling or welding.*
- *Do all crops better using only large wire concaves.*
- *Harvest small grain, soybean and milo crops with large wire concaves.*
- *Harvest corn and rice when removed.*
- *Lets you pull concave wires out for better corn separation and not have to put back in for any other crops.*
